Labor's Great Power.
It Rules the World Now.
Wisdom Will Recognize It.
Public Ownership Coming?

By Arthur Brisbane

(Written Wednesday, Aug. 6, 1919.)

The people should have kept and owned their own railroads. They hadn't the energy, or their government wouldn't let them.

Now millions of men that work on the railroad announce that they intend to put through government ownership, keeping for themselves a share in the profits and in the management. It looks as though they might do it.

The power of labor organization and numbers may prove strong enough to compel government ownership and defeat organized finance.

Stocks drop five and ten points at a time and there is a loud outcry at the suggestion that millions of men working the railroads should have something to say about them.

Prosperity is horrified at demands for increased pay aggregating eight hundred million dollars a year.

The government lately has been spending more than eight hundred million dollars a year to rebuild and re-equip the bankrupt railroads, and pay to private owners dividends not earned. Wall Street and private owners see nothing shocking in taxing the public to give money to men that sit and draw dividends. The shock comes when you suggest paying well the men that do the actual railroad work.

Senator Cummins is sincerely and unselfishly agitated by the railroad men's demand that the roads be owned by the people, operated by the government and the workers. Mr. Cummins sees in the railroad workers' plan "a purpose to obliterate the relation of employer and employee."

He said he doubted if civilization could survive the termination of this relation.

It may comfort Senator Cummins to recall that some very good men doubted the termination of slavery. Even Aristotle, one of the five greatest intellects, declared slavery essential to civilization. He was wrong.

The wage system took the place of slavery successfully, thanks to improved machinery.

And although it is not apt to come suddenly, and Mr. Cummins probably won't see it, something even better than the wage system may be found in universal profit-sharing, public ownership and other improvements.

Powerful men fought to maintain slavery, believing that without it they could not be rich and comfortable. They were mistaken.

The able man will have what he wants under every system. But after a while he will learn not to want so many things that he doesn't need.

Of this you may be as sure as Lincoln was—the great majority of human beings will not go along forever with a minority riding on their backs.

There is in this world enough and to spare for everybody. As intelligence and education do their work men will demand and get that to which they have a right and get it without depriving others of anything needful.

If Wall Street men who knock down prices in their terror were wise they would realize that nothing could help them more, make their property more secure, than peaceful settlement of great questions, as suggested by the railroad workers' plan that would insure contentment to millions.

The New York Times, speaking in dull measured tones for private ownership, and all things remaining as they are, finds a great obstacle to public ownership of railroads in the question of financing.

The railroads are worth many billions. Government could not raise all that money to buy and take over the roads, says the Times. The government could not possibly borrow so much, for only in deadly peril of war could government bonds be sold as they were sold recently.

Besides, says the Times, government had to pay four and three-quarters per cent for money on the last loan. If an attempt were made to borrow money to buy the railroads, government would have to go to Wall Street and pay an interest rate that Wall Street might ask.

Thus the Times worries about the poor government. But it is borrowing money at 10 per cent.

WORLD CONGRESS OF LABOR CALLED TO MEET IN WASHINGTON BY WILSON

HEIR TO BRITISH THRONE WHO IS NOW IN AMERICA

THE PRINCE OF WALES.

PRINCE OF WALES LANDS ON THIS SIDE ATLANTIC

(ASSOCIATED PRESS DISPATCH)
ST. JOHNS, N. F., Aug. 12.—The Prince of Wales landed here at noon today and rode through an enthusiastic crowd lining two miles of city streets over which decorated arches had been erected.

ST. JOHNS, N. F., Aug. 12.—The Prince of Wales landed from the battleship Renown at Topsail, a fishing village on Conception Bay, for his first visit to Newfoundland soil last evening. After remaining for a few hours he returned to the warship.

Is Wholesome Man
NEW YORK, Aug. 12.—David Windsor, described as a "healthy, wholesome man with light hair, blue eyes, and a somewhat plain, good-natured face," and better known as His Royal Highness, the Prince of Wales, is 25 years old, and as heir apparent of British throne is the eldest of the five children of King George V and Queen Mary. He was born on June 23, 1894, and, according to his royal biographers, received "a careful and common-sense education, mentally and physically, and has ever shown simplicity in manner, dress and life." The Prince, whose full name is Edward Albert Christian George Andrew Patrick David Windsor (his family's favorite name for him is "David"), has four perhaps, distinguishing characteristics. He carries a cane, is a splendid swimmer, and dancer, and is very fond of animals.

The highest dignity of all the British ruler's nearly 400,000,000 subjects, a veteran of the great war will bear to President Wilson and the people of the United States the expression of the British Empire's appreciation and gratitude for America's participation in the conflict and her part in achieving final victory. While in Washington he will be lodged in the White House. "Just as President and Mrs. Wilson were made to feel at home last December in Buckingham Palace."

His Royal Title
The Prince's royal title, briefly, would say to the private owners: "Here are nice 4 per cent government bonds, which constitute the first lien on the railroads. You will find these good security, as good as cash. If they are not good, nothing is, and you do not own the house you live in."

The railroad owners, if wise would take the bonds gratefully, thankful to get government bonds for railroads of which three-quarters are bankrupt under present labor and price conditions.

REDS DRIVE KOLCHAK'S ARMY BACK

Bolshevik Forces With German Officers Advance in Siberia.

WASHINGTON, August 12.—Complete collapse of the Kolchak movement in Siberia was forecast in reports reaching Washington.

Kolchak forces have fallen back almost 200 miles from their former advanced lines, and Omisk was said to be threatened with evacuation.

Failure of the allied and associated governments to get adequate supplies to Admiral Kolchak, the advisers said, had forced him to fall back steadily before the greatly superior Bolshevik forces composed of veterans, whose officers include many Germans, who fled to Germany when the armistice was signed.

Officials here are known to regard Kolchak's efforts at an end unless most radical measures are adopted by outside governments, and it was suggested that the president might call the attention of congress to the imminence that Bolshevik control of all Siberia.

The proposition of extending aid to Admiral Kolchak received the support of President Wilson and his associates at the peace conference in Paris, but the getting of supplies to him was found to be more of a military than a diplomatic problem. France, England and Japan were in a position politically to offer supplies but the position of the United States was not so clear on the point. Some officials here held that for the United States to participate in any extensive support, either in supplying the forces or in adding man power to the army, congressional action would be necessary.

U. S. Aviators Are Lost Along Mexico Border

MARFA, Texas, August 12.—Searching parties were dispatched today to look for Lieutenants Pearson and Davis, American army aviators of El Paso, who were thought to be lost in Mexico.

While on patrol along the Rio Grande near Presidio, Texas, they are supposed to have mistaken the Rio Concho, which is in flood, for the Rio Grande and passed into Mexico.

CONGRESS AND EXECUTIVE OFFICERS BUSY WITH WARFARE ON PROFITEERS

(ASSOCIATED PRESS DISPATCH)
WASHINGTON, August 12.—Problems of the high cost of living continued to absorb chief attention of congress and government authorities. While congress went ahead with the administration of various bills and suggestions for legislative relief, Attorney General Palmer continued negotiations with representatives of his department and state, city and county agents throughout the country for co-operation to bring about lower prices for the necessities of life.

Coincident with the announcement by the war department that prices of surplus army food would be readjusted from time to time to conform to reductions in the retail market on similar commodities, which was taken here as an indication that retail dealers already were beginning to feel the effects of the government's action in placing the vast quantities of stores on the market, it was announced last night that the war department would offer of public two million surplus blankets.

These include practically all grades and range in price from \$5 for retained best all wool to \$1.25 for retained

At the age of twenty-three Lieutenant-Commander William J. Rague has become the captain of the transport Finland, formerly a Red Star liner, just docked in New York. HIDDEN TREASURES BROUGHT TO LIGHT

Germans Hid Silverware and Jewelry When Doughboys Marched In

COBLENZ, August 12.—Civilians in Coblenz have recently been bringing to light their stores of silverware and jewelry which have been in hiding most of the time since the Americans came to Germany.

Proceeding the American army of occupation were wild reports regarding the khaki clad soldiers and most of the civilians, expecting their homes to be plundered, hurriedly placed their valuables in safety deposit vaults in the banks or in their backyards.

Now that the Germans have learned to trust the Americans they are telling how and where their treasure has been hidden all these months.

WASHINGTON, Aug. 12.—The international labor conference, provided for in the peace treaty, has been called by President Wilson to meet in Washington, October 29.

All nations members of the International Labor organization, as defined in Article 397 of the peace treaty and those which probably will become members prior to the conference, have been invited to send delegates.

Secretary of Labor Wilson has been asked by the president to take charge of the arrangements.

The international organization committee of the conference has completed its work in London, and Ambassador Davis has been instructed to invite the committee, in the name of the president to meet in Washington in September.

Demand Release Of U. S. Soldier Held in Mexico

LAREDO, Texas, Aug. 12.—United States military authorities here have demanded the release of Private Celestino Flores, 37th infantry, arrested Sunday in Nuevo Laredo, Mexico, charged with being a Felix Diaz, conspirator. He went to Nuevo Laredo in civilian attire to witness a prize fight and is alleged to have made anti-Carranza utterances.

Flores, an American citizen, born in Laredo, enlisted some time ago in the American army. The Mexican authorities told the military officers here that Flores would be head pending instructions from Mexico City. A report has been sent to Washington.

PHONE MEN STILL OUT

YOUNGSTOWN, Aug. 12.—No settlement has been reached in the strike of 25 electricians and operators of the Ohio State Telephone Company which has been in progress here for several weeks. They walked out with the Bell employees asking wage increases and recognition of the union. The Bell employees came to an agreement and returned to work two weeks ago.

CLEVELAND, Aug. 12.—Three hundred local chairmen of the Brotherhood of Locomotive Firemen and Enginemen, representing more than 100,000 firemen and hostlers throughout the United States and Canada, met here today to discuss wage demands to be presented to the railroad administration.

Posse Trailing Bandits Who Got \$27,000 at Bank

CENTRAL CITY, Ky., Aug. 12.—Posse of several hundred men today continued their search for bandits who yesterday afternoon held up and robbed the Citizens' Bank at South Carrollton, just north of here, obtaining \$20,000 in Liberty bonds and \$7,000 in cash. John Wells, 29, was captured late last night and lodged in jail, leaving his two partners in the hold-up free.

The posse has been in close touch with the bandits several times, but the robbers during the night made their escape to the Green river bottoms after having shot and wounded a sheriff and a policeman.

SHOT BY DETECTIVE
ASHTABULA, O., Aug. 12.—W. J. Inman, 63, was shot and seriously wounded here last night when he was mistaken for a coal thief by New York Central Detective J. Metzler. Inman, while walking along the railroad saw Metzler and another man and mistook them for hoboes. When they accosted him he struck one of them. The other shot him through the left arm of the body. He will live.

Legislation proposing the licensing of corporations having a capital or assets of \$10,000,000 or more engaged in interstate commerce and authorizing federal supervision over the issuance of stocks and securities, was introduced by Senator Frank B. Kellogg, republican, Minnesota.

Licenses would be issued by the federal trade commission which would have supervisory jurisdiction over the correspondents, and in case of illegal combinations or conspiracies in restraint of trade, it would have power to revoke the license.

OLD REGIME IS IN AT BUDAPEST

PARIS, Aug. 12.—The supreme council has not yet received a response to the notes sent to Rumania concerning the occupation of Budapest and consequently it made little progress today on the Hungarian situation.

The members of the council are generally convinced now that the council's note did not reach the Bucharest foreign office until Saturday and due to inferior service a speedy reply to Paris is unlikely.

BUDAPEST, Aug. 12.—The old administration officials have resumed their functions throughout the country. The official journal today prints a statement made by Archduke Joseph, saying:

"As soon as the national assembly meets after the elections, my work will automatically end and the decisions of the national assembly will be sacred to all of us."

PRAGUE, Aug. 12.—Large, but orderly demonstrations occurred here today, being led generally by the social democratic element in protest against the coup d'etat by which Archduke Joseph became the head of the Hungarian government.

At the beginning of the Rumanian invasion of Hungary, the more conservative elements of Czechoslovakia were insistent that a Czech army advance immediately into Hungary to protect Czechoslovakian interests there.

TIFFIN POTTERY REOPENS

TIFFIN, Aug. 12.—The Great Western pottery, the Tiffin branch of the Standard Sanitary Manufacturing Co. of Pittsburgh, resuming operations today after a week's shut down.

The plant closed because of inability to secure material as a result of a freight embargo occasioned by the shopmen's strike.

LINE VACATION

Dr. Walter D. Cole, popular pastor of Trinity M. E. church, writes the time that he is on vacation from his vacation, spent in North Dakota and Wisconsin. He will be at home in time to preach twice next Sunday and will be welcomed by his large congregation. Dr. Cole has had a wonderful trip and not the least of his pleasures was the time fishing he enjoyed. Ministers are not supposed to be extra fine tellers of fish stories but Dr. Cole will likely have plenty of them in store for his wide circle of friends.

Growth of Lima

When the original "Town of Lima" was platted, North street and West street indicated the north and west boundaries while Central avenue formed the east line and Ottawa River the south.

Public Square was almost impassable and a ravine ran through it from the north-west corner to the East Market street intersection.

For many years no one dreamed of Lima becoming a city of importance, with thousands of home owners; and nothing has contributed more to this growth during the past twenty years than such institutions as The Allen County Savings & Loan Company, in the Savings Building at the corner of Market and Elizabeth streets.

This company alone has helped many hundreds of families to become home owners who without such assistance would still be paying rent.

Deposit your money with "The Allen County;" you will not only receive five per cent interest but will help the other fellow to become his own landlord.

POSTAL EMPLOYEES SEEK MORE SALARY

Clerks and carriers of the local postoffice held an interesting meeting in the swing room of the federal building last evening.

The main discussion of the meeting, being the necessity of an increase in wages which is being delayed before congress.

During the last five years 33,000 letter carriers and an equal number of clerks have laboriously served the public at a wage which hardly permits the provision of the necessities of life, despite the fact that living expenses have gone up fully 100 per cent in some cases.

It seems the public is misinformed in many instances, believing that carriers are pensioned after a certain length of time, a provision that has never been considered by the government as men are dropped from the service when unable to perform their duties.

Many people believe too, that carriers' uniforms are furnished by the government, which is never done, as carriers furnish their own uniforms which in many instances have increased 100 per cent during which time they have received 25 per cent salary increase while living has risen from 50 to 100 per cent.

For this reason postal employees have decided to ask the people whom they serve to become active in asking their congress to take immediate action giving them a salary commensurate with their labors and with the present high cost of living.

Though petroleum exists in Siam and has been used in a crude way by the natives for lighting, no attempts have been made to develop the deposits.

Will One Pair of Glasses Suffice?

It is no longer considered advisable, nor in accord with modern customs, to wear the same eyeglasses for every occasion.

To have your eyes "well dressed" you should wear a different style for street use from those that you wear with so much comfort in the library or office. Very formal affairs require a more distinctive type than those you wear for ordinary use about the home.

We will be pleased to explain the correct mode in glasses to you if you are interested in being up-to-date in eyewear.

Federal Agents Ask Prosecution of Big Dealer

WHEELING, W. Va., August 12.—John B. Wilson, agent of the department of justice here, announced yesterday that he would recommend federal prosecution of George P. Hevener of Baltimore, Md. for chain of 100 stores, on the charge that Hevener ordered the sale of sugar at a higher figure than government regulation. R. K. Gardner, local manager of the Kenny company, testified at a food price inquiry here yesterday that Hevener had ordered him to sell sugar at \$10.20 per 100 pounds, while government regulations prohibit sales at wholesale for more than \$9.61 per 100.

This Delightful Climate

WHATEVER else any one says about this climate, he can not complain that it is monotonous. It is everything else—and therefore glorious. Down in New Mexico the people complain of the “everlasting sunshine,” in parts of South America it is “everlasting rain.” California is so equable it gets on a fellow’s nerves. Here, where changes take place frequently, where we have extremes—right here is the most delightful climate on earth.

Probably the most equable climate in the world for a large area, is that of New Zealand. It is under the domination of Great Britain—a colonial possession as it is called. But the Englishman doesn’t go there as often as he goes to frost-bound Canada or to blazing Australia. New Zealand, with its even temperature and freedom from extremes and rapid changes, has never been as popular with the Britisher as have the colonies where the extremes are greatest. Which shows that man doesn’t like an equable climate so well as he does one where there are more changes, for the Britisher isn’t different from other people in the matter of climate. The case is mentioned simply because here is one nation having territory lying in all manner of climates, with the most equable lagging behind in the matter of drawing population.

Extremes of temperatures, storms and sudden changes, days of rain and days of sunshine—clean, crisp and sparkling, or dull and and gray by turns—that it what man seems to like, and it is certainly what makes man develop the best that lies within his powers of development. Nowhere else under the sun or the clouds do men accomplish so much as in this very climate; nowhere else is happiness so generally and so generously distributed as right here.

The Asses Still Bray

THE REPUBLICAN State Advisory Committee—the one that controlled the General Assembly and made it so “popular” in Ohio—shows its superb patriotism by issuing a statement declaring that the attack on the cost of living, inaugurated by Governor James M. Cox is purely political and is an attempt to grab the Ohio delegation to the next national convention.

Having followed the activities of the said Republican Advisory Committee for some time, the announcement causes no surprise but it will have little effect on the activities of the state and county authorities who are going after the profiteers with determination to bring down food prices.

Governor Cox launched his drive against the collusion and conspiracy existing in Ohio. With him is associated Atty. Gen. Price a Republican, who is bending every effort and using all of the state’s legal machinery and the prosecuting attorneys of every county in Ohio the majority of whom are Republicans.

The charge that these Ohio officials are playing politics is a reflection on those who bring the charge. The State Advisory Committee of the republican party is playing with fire when it allows its partisan zeal and animosity to the governor to cause it to belittle the attempt of Ohio officials to bring relief to the oppressed public at this critical time. There will be intense condemnation of the politicians’ unpatriotic attitude throughout the rank and file of the Republican party in the state.

New Penitentiary

AT LAST THE state is assured actual work on the new Ohio penitentiary will be started Aug. 18 on the 2000-acre farm near London. From this date on it is to be hoped construction will be rushed to a successful completion. The need for the new institution has been most pressing, particularly so as the state is constantly enlarging its field of activity within the walls of the penitentiary and more room and additional modern facilities are greatly required.

It may be news to some to know that the penal institution at Columbus is a self-sufficient city unto itself. Today a prisoner leaving behind his cell in the “pen” is almost entirely equipped with articles manufactured within the “four gray walls.” During the past twelve months 22,500 blankets were made there, 14,000 of which were taken to France by the Red Cross. A spinning plant, installed last year, paid for itself in turning out 175,000 pounds of cotton yarn. Nine thousand pairs of hose were made by prisoners.

Then, too, 325,000 pounds of coffee were roasted in a single year at the penitentiary, and mops and mattresses manufactured, valued at \$100,000, together with \$10,000 worth of furniture. The ice-making plant furnished 4,000 tons of ice for the prison.

With an increasing demand for more space in which to operate, the new penitentiary, when completed, will go far toward meeting the needs.

HAPPY THOUGHT: Some towns have race riots, others have profiteers, while in a few the band still practices on Wednesday nights.

State Auditor Vic Donahay suggests that the state’s business would be better conducted with a legislature of 20 men in session the year round. Viewing the present legislature’s dismal failure the auditor’s suggestion is well worth considering.

Four eastern girls were arrested at 2 o’clock the other morning for boisterous conduct on a street corner. It appears that some brands of home-made drinks are a little too heavy for our out-sundae experts.

One probable solution of the Mexican problem would be to put the Pacific fleet on one side of her, the Atlantic fleet on the other, and then give them orders to fire toward each other.

Personally, we’re opposed to high-sounding names. They changed it from “side meat” to “breakfast bacon” and we’re paying about 40 cents more on the pound as a result.

Maybe, after all, the orchestra in a self-serve restaurant is only put there to take a fellow’s mind off the price he has to pay for the grub.

One senator says Japan is about to absorb our western civilization, and we wonder if that includes Mack Sennett’s bathing girls.

GOOD EVENING:—Always pick up a toothpick as you leave the self-serve restaurant. There’s nothing like a toothpick to remind you that you’ve had your lunch.

CITRIC ACID AND CITRATE OF SODA FINE “COOLING” AIDS
By **DR. LEONARD KEENE HIRSHBERG**
A. B., M. A., M. D. (Johns Hopkins University)

Discoveries newly made by several independent and unbiased investigators have utterly exposed a number of fallacies ingrained all too indelibly in the minds of many persons about the chemistry of health and sickness. Show me the average “experts,” the so-called “professional authority” of only a few years ago, the volumes and medical works in libraries, and the labels on medicine bottles, and I will show a lot of tommyrot about “uric acid,” “acid conditions,” “acid in the blood,” “acid stomachs” and other poultices of useless, meaningless fabrications about your living tissues.

As a matter of fact, every healthy living animal or human stomach makes its own acid. Indeed the digestive stomach juice is dependent upon two per cent of muriatic acid for its capacity to dismember food.

When you are ravenous, when you overeat, when you imbibe too freely, whenever you employ condiments, seasoning, pepper, salt, cat-sup, horseradish, sauces, tobacco or mustard too freely or too often the stomach fabric gets too busy and is over-productive. Too much hydrochloric acid causes an infinite variety of pains, aches, colics, bloated feelings, ulcers and other gastric disturbances.

Among the short cuts to relief which have just been proved useful is an effervescent remedy with citrate of soda or citric acid in it.

Has Many Uses.

Research workers, such as Sir Lauder Brunton, an English pharmacologist and physiological chemist, have found that citric acid and citrate of soda, or either, act as antidotes and neutralizers to the acid in the stomach.

If you take one of these effervescent powders of citrate of soda or citric acid with some alkali such as bicarbonate of soda they undergo combustion inside the tissues and are converted into carbonic acid, and as carbonates help eliminate waste by means of the kidney fluids and perspiration.

It has been brought to light by scientific observations and experiments that citric acid and its salt, citrate of soda, in an effervescent mixture quenches thirst, especially in hot weather, appeases the sharp pangs of hunger; is a refrigerant and assists in the reduction and relief of fever, heat, itchy skins and headaches.

“Citrate of soda and citric acid appear to have a use beyond that of the others,” reports an English chemist of physiological chemistry. “Inasmuch as citrate of lime is present in the human blood and aids in its power to clot and congeal, the administration of citrate of soda is used to help dissolve congestive headaches, congested knees, ankles and other joints, and thick, clotted boils and carbuncles.”

On Doctor’s Advice.

Sir Almoth E. Wright, an English army surgeon, was the first to discover this great value of citrate of soda and citric acid. American physicians have extended the use of this self-generated effervescent citrate of soda to soften the casein and clot in cow’s milk for infants and to administer it as a ready relief for headaches, Bronchitis and acetanilids added to this combination made a short cut to the relief of headaches.

Those who are of an anaplectic type, with short necks or have a family record of paralysis or apoplexy; persons with thick blood or high blood pressure, with history of congestive conditions or blood clots in the brain should, upon their physician’s advice, follow the recorded methods of Sir Lauder Brunton, Sir Almoth E. Wright and other investigators and take those effervescent remedies which contain citric acid and citrate of soda.

Answers to Health Questions.

1. C. Q.—What do you advise for pimples?

A.—Apply a little of the following to the affected parts:
Sulphur loti 2 1/2 drams
Balsam peru 1/2 dram
Camphor 1/2 dram
Green soap 1 dram
Lanolin 1/4 ounce
Vaseline 1/4 ounce

Mrs. P. Q.—What do you advise for a colic?

A.—There are various kinds of colic. Some require no treatment, but most of them require an operation which is the only cure. They are seldom inherited, and their causes are not known.

S. L. H. Q.—What do you advise for a bad breath?

A.—Your nose, throat or teeth may be the causes of this foul breath. If you are not at all constipated, and are fairly active with your limbs, foul breath may be excommunicated by the use of a good tooth brush, a disinfecting tooth paste, dental floss or silk pulled back and forth a few times between the teeth,

and a nasal wash something like alkaline antiseptic solution.

M. E. M. Q.—What do you think is best for perspiring feet?

A.—Bathe the feet in formalin—one-half teaspoonful to a pint of water. Bathe them each night in warm water, wear non-leather shoes and thin hose. Change the latter every morning.

OLD IS KILLED IN AUTO ACCIDENT

VAN WERT, Aug. 12.—A deplorable accident, in which Dorothy, the five-year-old daughter of Mr. and Mrs. William Gibson, of West Jackson street, was instantly killed and Mrs. Frank Royce, of West Jackson street, suffered a broken arm and many bruises, occurred about two miles West of town, near the Johns school house. The Royce and Gibson families are neighbors and following a request by Little Dorothy Gibson for an automobile ride Mrs. Royce as an act of kindness, took the child out in the automobile. At a point on the Woodruff road, about twenty-five feet North of the Tile factory road, the automobile swerved into the ditch, and landed upside down in the bottom, which is about ten feet below the surface of the roadway.

Two strangers who register as Harry Smith, of Homestead, Pennsylvania, and John Dolan, of Pittsburgh, were taken into custody Monday, by Sheriff Sells and Deputy Sheriff Terry, while in a corn field on the Grill farm, about one mile West of town. The pair came to town on an early morning train East bound on the Pennsylvania railroad. They made frequent inquiry while traveling on foot, in Pleasant township to ascertain if they were being pursued by officers of the law. They are being held at the county jail pending a further investigation.

The death of Mrs. Hamilton Wise occurred Monday, due to Bright's disease at the home of her brother, Frank Hoyt, of East Third street. Mrs. Wise, who was formerly Carrie Hoyt, daughter of the late Mr. and Mrs. David Hoyt, was born in this city, fifty-three years ago. She recently came to Van Wert accompanied by her husband, due to her serious illness, from their home in Muskegon, Mich.

A fourteen year old boy named Le Valley, whose home is in the center of Latty township, Paulding county, was killed Saturday, in a field accident. He was driving a team, which frightened and ran away, and the lad was killed by the horses.

RETURNED SOLDIER.

A very significant affair was given on Sunday in honor of a returned soldier, Carl S. Umbaugh, son of Mr. J. A. Umbaugh, of West Kibby street, who spent the past eight months overseas, stationed at Chaumont, France. He was with the Motor Transport Corps, and landed August 3rd at Philadelphia, being discharged at Camp Dix, on the 6th.

The guests, all brothers and sisters of the honored guest, gathered at the Umbaugh home, which had been made gay for the festive occasion with flags and garden flowers. A delicious picnic dinner was served at noon, and the afternoon spent with music and listening to war time stories.

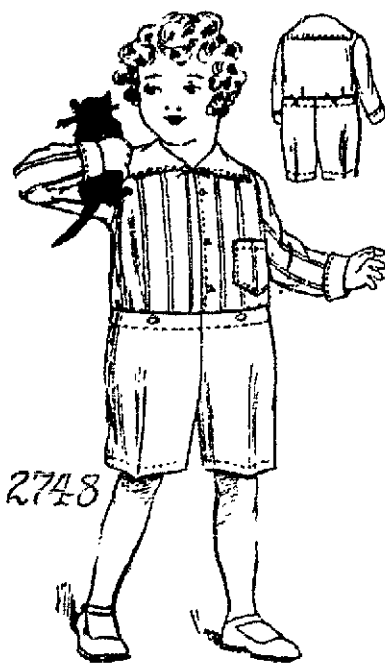

Those present for the afternoon were, the honor guest, J. A. Umbaugh, Mr. and Mrs. P. M. Sauter, and three children. Mr. and Mrs. Harrison Leffer and four children, of Marion; Mr. and Mrs. John Umbaugh, of Cridersville, and Mr. and Mrs. Bert Umbaugh, and three children of Shawnee township, Mr. and Mrs. Leo Dunning, Mr. and Mrs. Emmett Brentlinger, Mrs. C. The Adventures of a Married Flirt

by M.K.B.

VIII - ENTER JOHN MANNING

I don't know why I should have felt alarm at John Manning's suggestion that he wished to meet my husband. Surely nothing could have been more natural. Paul's corporation had installed branch offices in town with Paul as manager after John Manning's departure for the tropics, so the two men, who would naturally have moved in the same set, were yet strangers. They were both typical, clean-cut Americans, fond of their clubs, interested in sports, good dancers and dinner partners. I felt somehow that when they met they would become friends. Paul's breeziness and business acumen supplying the complement to John Manning's quiet, oftentimes morose manner.

I wondered why the suggestion were not more attractive to me. When I stopped to think, it suddenly occurred to me that Paul and I had scarcely a friend in common. We knew the same people, but we had chosen for closer intimacy, a totally different group, as diametrically opposed as the poles. I had casually gleaned the necessary ingredients for a successful marriage and one of the greatest of these I had been told, was "common interests." But the idea of attempting to make marriage successful was distasteful to me. As if any marriage could help but be, provided husband did not go into bankruptcy or become an addict of some vice once more into the financial equation!

My greatest fear was that marriage should prove too successful. I had no desire to see myself a model

wife in a model home surrounded by model children. The situation would be too barren of emotion and while I never under any circumstances permitted myself to experience emotion, I must always live in the midst of it. I resembled somewhat a plant plus lashed on the hillside of a storm-tossed world. Grazed by lightning and buffeted by the wind, seemingly torn from its very roots and shredded by the fury of the blast, it springs erect unharmed untorn when the onslaught of the wind dies away. Living in tempests of my own creating, I would bend, but never break.

Fearing that John Manning would guess my hesitation and misconstrue my motive which was not clear even to myself, I offered a ready invitation:

"Dine with us on your first disengaged evening, Paul will be so glad."

"Paul will not be glad," he contradicted firmly, "but Paul will be too jealous to dare refuse, just as I, or any other man would be, under the circumstances. He'll think I'm a first class cad. Understand Nell, I'm not forcing myself into this situation because I'm an utter bounder. I honestly think I can save you from the fall to which you're riding."

"What charming altruism!" I cried mockingly. "And how naive you are about shouldering discreet angels, 'out of the way.'"

John Manning had the grace to flush.

"Of course, I'm a fool," he said shortly. "You've told me so quite

delicately. But I don't consider your opinion. To be brutally frank with you, Nell, I don't approve of you. Or any of your ways. You are everything that I least admire in a woman, and yet I love you. That means nothing to you but a new stimulus for your vanity. But it means so much to me that I want to see you happy. We'll pass over the time when I hoped that I might be able to make you so. I'm used to losing—it's an old story."

"You can scarcely expect me to admire your St. George method of attack, bearing the sword of insult in one hand the olive branch of affection in the other. It's rather exciting to see which you will use first. What makes you think you can save me from this imaginary fate?"

"Because I'm the one person in the world who understands you."

AMUSEMENTS

FAUROT—DOROTHY GISH.
Hats off, folks, and make way for the Queen of the Celluloid Comedy! That Dorothy Gish gal is some champ when it comes to putting over mannerisms on the screen and getting all the laughs in the world for the cute little touches and tricks she possesses.

In her current release, "I'll Get Him Yet," which opened at the Faurot this afternoon, she pulls everything in comedy, even to a little bit of the Chaplin walk, and each time that she delivers one of these little tricks there is a howl of laughter from the audience.

"I'll Get Him Yet" is a corking story by Harry Carr, built to order for the star. It is of a rather farcical nature, handled with an eye toward speed in the action, and whoever

wrote the titles should receive a Croix de something for putting the laugh punch over in them. As to the photographer a measure should be given for he has delivered some splendid bits of photography and gotten lightings in his outdoor stuff that is really beautiful.

The story tends to show that mere man hasn't a chance in the world when any woman makes up her mind to land him as a husband. As soon as any of the female of the species makes up her mind that she is going to rope and hog tie a chump he might just well throw up the sponge, towel or whatever there is handy that will serve as a token of surrender. Miss Gish has the role of a millionaire's daughter who falls in love with a mere reporter (that is, faulty right off the bat; it never could happen.) But the reporter wouldn't have her because he would be called a fortune hunter. So she goes after him, and after about two and a half reels he is hooked and shipped off to the preacher.

It is now up to the wife to keep concealed that she really has \$5,000,000 in her own name, and even though she promised hubby she never would touch a penny of her father's dough, she failed to tip him off about her own. However, the general manager, the superintendent and the attorney of the railroad that she owns all show up at the dovecote in the suburbs where the pair are living, and wife, in trying to keep the knowledge of the wealth from hubby, only makes him jealous by meeting the men who are handling her business. Finally the little complications are cleared up, and hubby consents to become general manager of the railroad himself.

The production is a corking one, and a couple of shots of an auto race lend additional thrills here and there. It is, however, Miss Gish's work that holds from beginning to end.

Richard Barthelmess plays the lead opposite the star and scores. He is a clear cut, full of pep American juvenile who will appeal anywhere. George Fawcett, as the father, was a delight in a corking role that fitted him to a T, even though it was not particularly lengthy. The trio of business men were Porter Strong, Richard Pile and Ralph Graves.

"I'll Get Him Yet" is a blimp of a comedy that will blow out to sea and carry all your troubles with it. This capital program also in-

cludes the Pathe News and Mack Sennett's new and very funny farce, "No Mother to Guide Him."

WANDERING LAD OF SUNNY SOUTH IS AGAIN AT LARGE

After being arrested here and while awaiting an investigation, Willie Owens, alias Harry Brown, 15, of Nashville, Tenn., yesterday escaped from the detention home, and has not been apprehended by juvenile authorities.

Willie was arrested here a few days ago as he alighted from a Baltimore & Ohio passenger train. Upon being taken to city prison, the lad gave his name as Harry Brown, and stated his home was in Louisville, Ky. Authorities at the time doubted the statement.

Later, juvenile authorities quizzed the lad, and ascertained his true name, and discovered his people live on Madison street, between Fourth and Fifth streets, Nashville, Tenn. The lad's parents were communicated with, and pending an answer, the boy was placed in the detention home from whence he made his escape yesterday.

Later in the afternoon, a message was received from the boy's mother to the effect that an uncle by the name of Blume, resides in Lima. Juvenile authorities, however, have been unable to locate the uncle.

LIGHT VOTE BEING CAST AT PRIMARY

Little interest is being displayed in the Primary Election being held today, and up to a late hour this afternoon, an exceedingly light vote

has been polled. The six bond issued submitted to the voters are said to have brought out a few voters which would not have visited the polls otherwise.

While on the Republican there are several races for councilman, there has been no interest created in the race. There are two candidates for the office on Judge of the Criminal Court on this ticket. There are R. R. Trubey and Clement Ohliger, Ernest J. Jackson, seeking

nomination on the Democratic ticket has a lone field.

The race which is probably creating the most interest today is the one between Calvin F. Selfridge and Elmer McClain for City Solicitor.

However, the item on today's ballot which has caused the most comment is the question of a municipal lighting system. The Ohio Electric Railway Company is fighting the issue, while a Citizen's committee favors it.

Pebbleford True To His Name

"What's your name?" asked Sergeant Charles McCoy, of the police department, last night, as he prepared to register the drunk, on the police blotter.

"Ed Pebbleford," said the prisoner. "Pebbleford, Pebbleford," exclaimed the sergeant, "that's not a name,

that's a whiskey."

However, Pebbleford stuck to his name. Later he was released under \$15 bond, which he forfeited when he failed to appear in police court this morning. He is a cook at the Norval hotel, according to the blotter.

PHILLIES HIT ELLER HARD AND WIN OUT

Fatal Seventh Sees Battle Rally and the Reds' Defeat By 5 to 3

CINCINNATI, Aug. 12.—The Phillies staged a batting rally in the seventh which gave them a victory over the league leaders, 5 to 3.

For six innings Eller shut out the visitors, but in the seventh Blackburne's triple, a single by Luderus, two passes and a home run by Paullette gave them five runs and the game. Luque finished without being scored on.

Rixey was effective. In the first inning Daubert's single, a walk, a double steal, and an out at first gave Cincinnati its first tally. The Reds scored again in the second on errors by Bancroft and Blackburne and one more in the sixth on a walk, a sacrifice and a single by Kopf. The fielding of Rath at second was a feature. Score:

CINCY SCALPERS GIVEN A JOLT

CINCINNATI, O. Aug. 12.—Announcement was made by federal revenue authorities here yesterday that agents of the internal revenue office in rounding up a number of baseball ticket scalpers. It developed that there were several scores of profiteers who sold Redland field admission tickets at two or three times the regular price. When called to account by revenue agents they paid the \$73 on their resales. They will be held to the federal grand jury for evasion of the war revenue tax.

Investigate Mr. Olson, of the Brooklyn team. He held he pill yesterday and watched Barbara race home. Maybe the Swede was in a trance.

Then again, he may have been figuring on an invention to stop the Reds.

HEARING OF INJUNCTION POSTPONED UNTIL FRIDAY

NEW YORK, August 12.—At the request of attorneys, reporting President Johnson of the American league, counsel for the New York club agreed to postponement until Friday of arguments on the motion to make permanent temporary injunction restraining Johnson from depriving the Yankees of the services of Pitcher Carl Mays. Argument was to have been heard today.

Presidents Comiskey of the Chicago club, Frazee of the Boston and Ruppert of New York, at a conference here today decided to call a special meeting of the board of directors for Thursday, the day before the court argument will be heard. They constitute three quarters of the directorate of which Johnson is a member only ex-officio. The Mays case will be considered in all its aspects at this special meeting. Colonel Huston, half owner and secretary of the New York American league club, also attended the conference.

All the club owners seemed to be pleased with the result of their day's work here, although none of them would say what was expected to be accomplished at the coming meeting of the directors.

BENNY LEONARD OUTFIGHTS CLINE

O'Dowd Beats Clark at Syracuse, and Dick O'Brien Defeats Geyer

PHILADELPHIA, Aug. 12.—Benny Leonard, lightweight champion, outpointed Irish Patsy Cline, of New York, at the Philadelphia National baseball park here last night.

Cline forced the fighting in three of the six rounds but Leonard's superior boxing skill carried him out of danger. In the fifth and sixth rounds Leonard used a right hand upper cut at close quarters Cline's left eye was badly swollen. Leonard escaped without a mark.

Joe Welling, Chicago took the popular decision from Johnny Dundee, New York, by a rally in the sixth round. Charlie White, Chicago outpointed Harry Pierce, Brooklyn in six rounds.

Eddie Morgan of England and Johnny Neely, Philadelphia, boxed a draw.

SYRACUSE—Mike O'Dowd St. Paul outtought Jackie Clark, Allentown, Pa. In ten round bout here Monday night.

COLUMBUS, August 12.—Dick O'Brien of Cincinnati, won the refereed decision over Jack Geyer, in a 15-round bout at the American Association ball park here last night. Geyer weighed 195 pounds while O'Brien was 12 pounds lighter, tipping the beam at 182, according to announcement. O'Brien had the advantage in nine rounds, Geyer in one the other five being even. A cut over Geyer's left eye caused by a right swing in the fifth round bled profusely throughout the remainder of the bout and seemed to interfere with Geyer's vision.

In the thirteenth round Geyer brought the crowd to its feet by taking the aggressive, after being apparently beaten to a standstill rushing O'Brien around the ring landing a volley of rights and lefts which made O'Brien go into several clinches to avoid punishment. The last two rounds were all O'Brien's.

A double-header at the Polo Grounds tomorrow. Oh, boy!

JACK JOHNSON STILL LINGERS

NEW YORK, August 12.—Instead of being a broken down, decrepit old man, ready for the poor house, it develops that John Arthur Johnson, former heavyweight titleholder is living off the fat of the land and enjoying to the utmost the hospitality of Mexico City and citizens. Reports that he is to be sent back to Spain apparently are without foundation, for he is promoting, financing and arranging a boxing match between himself and Tom Cowler, to be held in Mexico City, August 21.

Cowler, escorted by Solly Harris and riding the cushions at the expense of Johnson, left New York yesterday for Mexico. Johnson sent the advance money to Cowler and his manager and arranged for the passage and trip to Mexico City. That Johnson had the money for railroad tickets and incidentals of such a trip should disprove the story that he is broke. According to Harris, Johnson is far from being in want, and, in fact has plenty of money.

GRAND CIRCUIT MEET AT BELMONT

Two Stakes and Two Open Classes Made Up Card For the Opening Today

PHILADELPHIA, Pa., Aug. 12.—Two stakes events and two open classes make up the card for the opening today of the third Grand Circuit meeting at the old Belmont Driving Club's mile track, Narberth, Pa. Purse and stakes including one for trotting teams aggregate more than \$30,000 and it is expected that about 150 trotters and pacers will start in the 16 events on the four days' program.

The \$3,000 Hotel Adelphi stake for 2 06 pacers and the Director's stake for 2 20 trotters owned in Philadelphia, were the opening day's features. The Adelphi had 11 entries including Direct C Burnett, Tommy Murphy's horse, which won Friday; Frank Dancy, Grace Direct, South Bend Girl, Little Batiste and Edward P. There were also 11 carded to start in the \$1,000 Directors stake.

The 2:08 trot with 15 entries and the 2:13 pace, with 17 entries net purses of \$1,000 complete the first day's card.

JUST LOOK WHAT CONNIE HAS DONE

PHILADELPHIA, August 12.—Manager Connie Mack, of the Philadelphia Athletics, announced that he had purchased the right to the entire playing personnel of the Atlanta club of the Southern association. He already has picked nine of the players to report to him at the close of the Southern association season on September 7. Mack also announced the purchase of Pitches Zann of the Waco Texas club, and Pitcher Rommel of the Newark International league club. Zann and Rommel will report on September 12.

KELLY HAD RIGHT DOPE

Cincinnati has offered \$12,000, it is said, for Outfielder Elmer Miller of the St. Paul club. This reminds us of a statement made in the spring when Mike Kelly made his first trip here with the Saints. "Miller is one of the most promising players I have seen in a long time," said Mike. "He'll be another Joe Riggert at his best." That Mike thought right is indicated by the big bid for his services.

DEMPSEY'S MOTHER ANSWERS FEW DISPUTED QUESTIONS

The following is from the pen of "W. D. B.," sporting editor of the Salt Lake Telegram:

Scarcely a day passes that does not bring me some inquiry about Jack Dempsey, Salt Lake's new heavyweight champion. They come through the mail, over the phone and verbally. Most of them are questions which have been answered a dozen times, but some of them are evidently still causing dispute.

This morning's mail brings a letter from a Rube Bennett, of Chicago, who says: "Please write me a letter over your own signature setting out that Jack Dempsey is a Salt Lake boy, so that I can settle a lot of argument."

The Ogden Standard wants to know: "Isn't it a fact that Hyrum Dempsey is Jack's stepfather and that the fighter's real name is not Dempsey?"

In order to settle all arguments at once, therefore, the writer has interviewed Mrs. Celia Dempsey, Jack's mother. Mrs. Dempsey has answered all questions and if there

is one person in the world who should be able to settle these arguments it is the boxer's mother.

In brief, here is the dope on the new champion:

His name is William Harrison Dempsey.

Born at Olanassa, Colo., in 1895. Son of Hyrum and Celia Dempsey.

Mother and father both hail from Logan county, West Virginia.

Parents claim no relationship with the Hatfields, McCoys or other "famous" mountaineers of West Virginia, as related in a West Virginia dispatch yesterday.

Parents came to Utah, taking up their residence at Provo, from Manassa, when William Harrison was but a child, and resided at Provo until the boxer was about 12 years old.

Since leaving Provo the family has always lived in Salt Lake.

The fighter's parents now live on South State street.

William Harrison Dempsey has four brothers and three sisters.

Summary of Demands as
Made By the Men On
City Lines

Unless officials of The Ohio Electric Railway company accede to their demands, five hundred trainmen, including 70 employees operating local street cars, will walk out Thursday morning, according to a statement this morning by James Largay, special organizer of the Amalgamated Street and Electric Railway Employees, who is in Columbus today in behalf of the workmen. However, local officials have received no ultimatum from the union, it is understood.

Over the entire system, the decision to strike was made by the men without any influence being used by the officials of the union or the employer, he said. He continued, the matter was put up without recommendations.

LIMA MEN VOTE

Lima carmen, at their meeting last night, voted 134 to five in favor of the strike. They stated they did not know just when the strike will become effective. The matter they stated, is left to officials of the union. According to advices from Columbus, Largay's word relative to the time of the walkout is authentic.

While nothing definite is known it is understood, the workmen will render their ultimatum to officials of the company late Tuesday afternoon, and if the demands are not conceded local lines will be tied up.

The men who will strike, are divided as follows: Zanesville city lines 65 men; Zanesville to Columbus, including Newark city lines 75 men; Springfield north, including Lima, Toledo, Ft. Wayne, Defiance, 200 men; Lima city lines, 70 men; Columbus-Davison division, 70 men.

The Dayton-Indianapolis division is not affected by the strike, it is understood.

DEMAND MADE

The interurban men are asking wage increases of 10 cents an hour to 75 cents for three months' men and 75 cents for nine months' men and 75 cents for men in the employ one year.

The company offers an increase of 10 cents an hour to the three months' men to 75 cents, three cents an hour to the nine months' men and 10 cents to 10 and 15 cents respectively.

The men are demanding an increase of 10 cents an hour to 45 cents and 75 cents and the company offers an increase of three cents to 15 cents.

The men have been granted recognition by the union in so far as their union is concerned but the company refuses to deal with substitution and women in the union, Largay said. The company refuses time

Lima Merchants To Entertain At Elida Thursday

"Um, um, yum, yum!" That real chicken dinner to be served at the Pioneer picnic grounds near Elida Thursday evening is engaging the attention of Lima gourmets and epicures of mercantile and professional circles just now.

But Mr. Keltner of the entertainment committee warns members that they may not get their name in the big pot if they don't take quick action. He says the Elida ladies must know today just how many plates they are to serve. Members going there, and who expect to take part in "ladies' night" at Crites' move Thursday evening at 6 o'clock, must phone their reservations at once or they may have to drive home supperless.

These good fellows, members of the Lima Suburban Day Trade association and their families, will have an afternoon off on Thursday—one of the series of July and August Thursday afternoons for recreation. It will be an exceptional opportunity to members to meet so many of their customers and friends in one group. Indeed, it may not happen again.

For tomorrow, Suburban Day, these merchants are arranging to celebrate the superstitious 12th with a royal selling bee. A glance at the advertising columns of The Times-Democrat today will reveal something of what to expect. It is one of the greatest shelf-emptying events ever announced in Lima. It is high time. The upheaval now in progress through the entire system of merchandising suggests to shopkeepers the necessity of making dispositions for their stocks; for what is coming no one can predict with certainty.

MAYOR IS NEUTRAL

The city will not give the railway company protection to run their cars in case of strike, is the statement made by Mayor Simpson this afternoon when questioned as to what part city officials will play if a strike is declared.

The mayor said: "We have prohibited by the last street car strike. We do not intend to mix in affairs this time. As far as the city is concerned the cars will be run into the barn and kept there until matters have been settled."

When questioned as to whether or not federal agents will be brought here to men the cars, the mayor replied that he knew nothing of any such intentions.

Officials of the company, in this city, state they are not in a position to say as to just what will be the next move on their part.

According to the officials, indications are, the striking trainmen are awaiting developments of the company before any further move is being made in their strike.

Women to Aid In Food Probe

A meeting of Lima women affiliated with the Lima federation of women's clubs, has been called for Wednesday afternoon at the public library, to discuss ways and means to aid in the fight against the high prices of foodstuffs. The meeting has been called by Mrs. Luan M. Butler, president of the federation, who has just returned from a several days' tour of inspection of the markets in Dayton which were started under the auspices of the Dayton Women's federation.

Mrs. Butler will tell the results of her investigation at the meeting Wednesday, and initial plans will be outlined for the food probe. The organization will assist Prosecutor John Cable in his investigations.

TWOSTATE HOSPITAL INMATES ESCAPE AND ELUDE PURSUIT

Three Scale Walls While
Taking Exercises, One
is Retaken

NO TRACE YET FOUND

Reports From Various
Sources Prove to Be Futile
When Followed

Two prisoners, who gained their freedom Monday night by scaling the 25-foot wall at the Lima State hospital, have not been apprehended up to a late hour Tuesday afternoon, according to information received from the institution.

Shortly before the dinner hour last evening, Frank Langley and Andrew Jackabowski, white, and John Jeff, colored, in company with other prisoners were given their daily exercise in the court yard under the surveillance of E. E. Taylor, ward attendant. When Taylor marched the men into the institution upon completion of their exercise, Langley, Jackabowski and Jeff were missing.

One Recaptured.

In the meanwhile another attaché of the hospital spied the three men going over the wall. The alarm was sounded, and by the time the guard had gotten to the point where the men scaled the wall the prisoners were some distance away. However, their trail was picked up a while later and Jackabowski, unable to keep up with his fleet-footed companions, was run down, and returned to the institution.

Langley and Jeff, it is thought, separated. Citizens aided the attachés of the hospital in their search for the escaped prisoners, but it was futile. All trains passing through Lima have been watched in an effort to apprehend the prisoners.

No Real Trace.

Late this afternoon officials of the hospital stated they have been informed by persons that the prisoners have been seen in various places, but attaches searching for them, have been unable to pick up a real trail.

Langley was sent to the institution from Columbus, after being convicted of a wholesale robbery of automobiles. Jeff, while in jail at Lebanon awaiting trial for forgery, secured a razor and painfully slashed other inmates. He was later sent to the local institution. Jackabowski was sent here from Cleveland after he shot a man in that city.

LAD ACCIDENTALLY SHOOTS SELF, IS LIKELY TO LIVE

Word from the city hospital this afternoon is to the effect that Carl Hardesty, 14 years of age who accidentally shot himself late Monday afternoon at McCullough's park, was resting comfortably and his recovery is hoped for unless complications set in. The lad together with a companion Raymond Heffern, 13, went to the park to practice target shooting.

Hardesty borrowed the gun from a friend in Ada, and decided to give it a tryout. He pulled the trigger twice and missed a can which he used as a target. A third time he tried and when the trigger failed to go off he put the barrel of the revolver to his mouth to blow out the smoke when it was accidentally discharged.

The bullet cut thru his tongue and entered the vertebrae in the back of his neck. Williams and Davis ambulance was called and the boy rushed to the city hospital.

HUNDRED KIWANIS ATTEND POW-WOW AT NOON TUESDAY

B. A. Gramm, In Address,
Says Labor Cannot
Be Ignored

MUST DISCUSS CASE

Luncheon of New Club is
Most Enjoyable Affair
—Guests Present

Almost a hundred members of the Lima Kiwanis club and guests listened to B. A. Gramm, vice president of the Gramm-Bernstein Motor Truck company, discuss the high cost of living and the labor unrest in the country, at the club's weekly pow-wow and luncheon in the Elks' Home, Tuesday noon, and at the close of his address they cheered him vigorously.

The speaker declared that there isn't a big factory in Lima that hasn't lost money during the past four months, but that they have shouldered the burden because of their implicit faith that conditions must improve. He averred that there is no doubt that conditions will work around to normal, just when he one knows, but that it is certain to come.

"In Lima," he said, "we are perhaps free of strikes, yet we feel and hear rumblings. Business men say we must not discuss this subject, fearful that they will lose trade. The politicians assume a similar attitude, fearful that they will lose votes. But this is passing the buck. I don't believe in passing the buck; on the contrary, to sanely discuss situations which confront us."

Mr. Gramm said that in his factory he makes it possible for his employees to come into the business office and have a frank discussion with the officers, and familiarize themselves with the cost of the product in the factory.

Among today's guests at the pow-wow was Lieutenant Harold Slocum, purchasing agent of the Curtis Publishing company, Philadelphia.

LIMA'S FOOD SUPPLY DELAYED ON ROAD

City officials are becoming anxious over the two carloads of foodstuff ordered last week, as nothing has been heard from them. Marketmaster Herbolzheimer was in communication with Mayor Simpson and was instructed to wire Columbus this afternoon if nothing is heard relative to the shipment. Herbolzheimer, later stated, it is his belief the cars will arrive in Lima late this afternoon. If not, he says, he will wire army officials in Columbus and Chicago tonight so far as can be ascertained, the marketmaster says, there is nothing to delay the shipment as postal authorities have not taken over the army food supply as yet.

Waynesfield, Ohio.
Aug. 12, 1919.

Dear John: Sure did rain last week and we needed it too, wouldn't it be nice if folks always got what they needed, when they needed it, eyes for instance, seems like folks neglect to have them looked after until forced to do so, Mr. Frankie the Optometrist at Hughes and Son says: "On should have their eyes examined at least once in every two to three years and I know that he is right."

Yours,

Mary.

P. S.—Don't forget I expect you to take me to the picnic at Elida, Thursday.
